- Support projects by producing a variety of documents that include but are not limited to:
 - Lighting layouts
 - Lighting calculations - daylight and electric light
 - Energy code compliance
 - Report writing
 - Presentation materials - renderings and graphic packages
 - Fixture schedules and specifications
 - Hand sketches
 - Develop project cost opinions
- Participate in developing design for projects.

Qualifications we seek in a candidate:

- Bachelors or advanced degree in a design related field such as architecture, interior design, theater design or lighting design plus up to 4 years experience; or equivalent combination of education and experience.
- Knowledge of applicable codes and ability to apply them for typical project types.
- Knowledge of InDesign, Photoshop, AGI 32, Word and Excel.
- Knowledge of AutoCAD 2005 with AutoCAD ABS preferred.
- Sketching ability sufficient to convey design concepts at a client or in-house meeting.
- Knowledge of appropriate content for lighting drawings (plans, elevations, sections and details) and specifications.
- Understanding and commitment to sustainable design practices.
- Ability to travel regionally as projects require.
- Well developed client and interpersonal skills.

Investments we make in our people:

- Full group insurance benefits
- Performance bonuses
- 17 paid days off to start, plus paid holidays
- On-site learning and career development through Sparling University
- 401(k) with company contribution
- Flexible spending plan with company contribution
- Commuter assistance
- Paid professional association membership
- Free passes to area attractions
